MOVE TO END WAR ADOPTED BY SENATE

Compromise Resolution is Approved by 33 to 19 Vote

G. O. P. VOTES SOLIDLY

Coolidge Affixes His Name—Brandegee Makes Principal Speech—Will Deal With Question Arising out of the War.

Washington, July 2.—Enactment of the compromise resolution ending the state of war with Germany and Austria finally was completed yesterday by Congress and the measure will be sent by special messenger to President Harding at Raritan, N. J., tomorrow. He is expected to sign it immediately.

At the White House, where the resolution was received early tonight, it was said that the messenger would leave here at 9 o'clock tomorrow, arriving about 2 o'clock at Raritan, where President Harding is the guest of Senator Frelinghuysen over the holiday.

Final action on the measure was by the Senate, which adopted the conference report by a vote of 38 to 19, after a day of debate in which the Democratic minority made a last assault on the resolution. The House voted yesterday, the vote being 263 to 59.

The signing of the measure by the President will open the way for the resumption of diplomatic relations with both Germany and Austria, but Administration officers have indicated that plans for this have not been worked out.

All opponents of the resolution were Democrats, but three Democrats—Shields, of Tennessee; Walsh, of Massachusetts and Watson, of Georgia—voted with Republicans for adoption. Senator Reed, Democrat, Missouri, was paired in its favor.

Announcements were made that all other Senators paired or absent favored or opposed the resolution according to their party affiliations. Senator Knox, of Pennsylvania, author of the original resolution, was absent, but was paired with Senator Pomerene, Democrat, Ohio.

The resolution, after the Senate vote, was signed by Representative Towner, Republican, Iowa, Speaker pro tem. in the House in the absence of Speaker Gillett, who had gone to New Jersey with President Harding. It was then signed by Vice-President Coolidge during an executive session of the Senate and sent to the White House.

Final debate today was principally by Democratic opponents, who declared that the Republican plan was futile and would necessitate a separate treaty of peace later or ratification of the Treaty of Versailles.

For the Republicans, Senator Brandegee, of Connecticut, made the principal address, declaring that there would not be a treaty of "peace," but probably one or more of "commerce," which, he said, would deal with questions arising out of the war. Senator Lodge, of Massachusetts, Republican leader, entered the discussion briefly, mainly to support Senator Brandegee's contentions. Arguing that a peace treaty was not necessary to conclude wars, Mr. Lodge said that the United States had negotiated treaties treaties of commerce with Great Britain in 1812 and 1815 and also with Spain after the Spanish war.

In response to a query from Senator Harrison, Democrat, Mississippi, Senator Lodge said that he knew of no plans by the Administration to resubmit the Treaty of Versailles to the Senate.

To Speak On C. E. Work

F. P. Wilson, Field Secretary of Virginia to Make Several Addresses Tomorrow

Frank P. Wilson, field secretary of the Virginia Christian Endeavor Union, will speak at the Sunday School of the Second Presbyterian Church tomorrow morning and also at the Christian Endeavor rally tomorrow evening at 8 o'clock at the same church. Tomorrow afternoon at 4 o'clock he will speak at the Presbyterian Chapel, Commerce and West streets, and again at 7 o'clock at the Christian Endeavor meeting in the Methodist Protestant Church. All who are interested in young people's societies are cordially invited to these services. The C. E. Society of the Second Presbyterian Church will hold a social this evening at the home of Mr. and Mrs. W. E. Swann, north Rosemont, where the Christian Endeavorers and their friends will have an opportunity to meet Mr. Wilson.

Retail Credit Men

Discuss Credit Situation at Meeting Last Night

The Retail Credit Men's Association of the Retail Credit Men's Bureau of the Chamber of Commerce, held a well attended meeting, at the rooms of the Chamber last night. Credit situations were discussed and matters of importance were brought before them. They are doing so much work along the line of credits that they found it impossible to discontinue their meetings for the summer. Another meeting was called for Friday night, July 8, at 8 o'clock.

Attendance Campaign

1443 At Sunday Schools Last Sunday —Drop of 199 Over Previous Sunday

The figures of the attendance at the various Sunday Schools entered in the Attendance Campaign show many interesting features this week. The total number attending these schools last Sunday was 1443 against 1642 of the week before. This total is still higher, however, than the average attendance during the three winter months which marked 1418. No doubt the unusual heat from which every one is suffering is responsible for much of the loss in numbers and the fact also that many are now using vacation time for week end trips out of the city.

The first and second places in the list are still held this week as last by the Second Baptist and M. E. South respectively, while the distinction of the third is shared equally by the First Baptist which held the position uncontestedly last week, and St. Paul's which has climbed steadily from sixth position until it now ties for third. Trinity Methodist this week passed the Second Presbyterian, leaving the latter in the last position.

Sunday School	A.	A.PC
Second Baptist	178	134
M. E. South	410	123
First Baptist	440	113
St. Paul's	170	119
Trinity Methodist	113	103
Second Presbyterian	132	102

DEMPSEY WINS FIGHT

Ringside Jersey City, N. J., July 2.—Jack Dempsey this afternoon knocked out Georges Carpentier in the fourth round thereby retaining the world's championship. The biggest crowd that ever witnessed a puglistic encounter saw the big contest. The receipts were heavier than any ring battle in the history of the world.

SIDELIGHTS ON FIGHT.

Jersey City, N. J., July 2.—It was rumored during the morning that 100 men had been arrested in the vicinity of the arena, but the report proved untrue.

A number of men had hidden in the arena all night in hope of seeing the fight for nothing. They were discovered when the arena was washed down with several lines of hose, which shot high-powered streams over the whole structure in a perfect deluge.

Streets near the arena looked like a mardigres in full blast. Stands for the sale of sandwiches and soft drinks lined the street. The thoroughfare were lined with street vendors selling everything from hot dogs to French dictionaries.

The weather turned cool early today, and some of the men who were waiting for the gates to open built camp fires to keep warm.

Emergency police and hospital stations were established near the arena. A temporary hospital was established on the courts of Jersey City High School.

GRIFFITH CONFERS WITH DE VALERA

Dublin, July 2.—Shortly after the release from Mountjoy prison of Arthur Griffith, founder of the Sinn Fein organization, on Thursday, Eamonn De Valera, the Irish republican leader, went to Mr. Griffith's home in Clontarf, and conferred with him. Mr. De Valera also conferred with Prof. John MacNeill, president of the Gaelic league, who was released with Mr. Griffith.

The Irish republican leaders are in general accord, and will state their common case at the conference in the Mansion house here on Monday.

The attitude of the southern unionist representatives who will attend this conference is understood to be favorable to acceptance by Mr. De Valera of the invitation of the British prime minister, Mr. Lloyd George. They are said to be in agreement with the republicans in deprecating the separation of northeast Ulster and their suggestion will be in the direction, it is believed, of increasing the power of the central council which will bind together the northern and southern parliaments.

The Ulsterites, on the other hand, it is understood here, are disposed to favor increased financial powers being exercised by each parliament separately, and are not willing to agree to entrust them to the central council.

R. C. Barton, member of the dail eireann for East Wicklow was liberated today from Portland prison and is expected to arrive in Ireland tomorrow, according to the dail eireann's publicity department, which announces that Mr. Barton's sister has received a telegram to this effect.

MOVING $4,000,000 WHISKEY.

P. & O. Police Closely Guard Cars Carrying 100,000 Gallons.

Martinsburg, W. Va., July 1.—All along the route of the Baltimore & Ohio railroad between here and Baltimore the railroad police are exercising unusual vigilance because of the removal, just begun, of 100,000 gallons of "bottled in bond" whiskey, held in certificate storage by a large West Virginia distilling corporation, from its warehouse in this city, to another.

The stock is being forwarded daily in one and two-car lots, each car holding 118 barrels, and each barrel holding about 35 gallons of the original 50 put into it, the decrease being due to evaporation. Approximately 25 cars will be shipped. The company is making the transfer in the interest of economical warehousing. At the present quotations of $10 per quart this stock of whiskey is worth $4,000,000.

EIGHTEEN TYPHOID CASES IN JUNE

Health Officer Says it is Slight Decrease Over Last Year

URGES INOCULATION

Says Typhoid Not Caused by Water or Milk—No One Thing Given as Cause.

There were 18 cases of typhoid reported to this department during the month of June, Making a total of 22 cases since January 1. During the same period of last year we had a total of 23 cases, says Dr. L. E. Foulks, city health officer.

From January to July last year, we had 3 deaths from typhoid. For the same period this year we have had 2 deaths, one less than last year.

A very careful investigation of these 18 cases, shows that one case was imported, and 8 cases are probably outside infections.

A goodly portion of our population work outside the city. Many other visit out in the country.

Many young men and boys persist in swimming in the river, which is simply an open sewer. And many insist upon drinking water from the various springs outside of this city, despite the fact that I have frequently issued public warnings that practically all such springs are polluted. Many people even go out to these springs and bring water home for drinking purposes.

There are more flies this spring than usual on account of the warm winter. More flies means more typhoid, even under normal conditions.

One thing is sure, that the cases we had last month were not caused by either the water or milk served in this city. There is absolutely nothing to point to any one thing as the cause. But why have typhoid when you can be immunized against it?

The anti-typhoid inoculation is an absolutely safe and sure prevention of the disease.

Your family doctor will inoculate you. If you can't afford to have him do so, we will do it at a small cost, 50 cents, to help pay cost of material used.

Why run the risk of a serious disease when you can prevent it? Remember, you will find more or less typhoid no matter where you go, in any part of the country, or any part of the world. If you won't make any effort to protect yourself, how can we protect you?

AUTO THIEF GETS 7 YEARS

Trenton, N. J., July 2.—Declaring that the practice of stealing automobiles has become altogether too common, Judge Marshall, in Mercer court today, sentenced Edward P. Yates, a former newsdealer, convicted of stealing an automobile, to from three to seven years in State Prison. Yates was sentenced only upon one conviction, sentence being suspended on four similar charges to which he pleaded non vult.

Judge Marshall, in sentencing the prisoner, said that the defendant had heretofore borne a good reputation, but lured by the possibility of "easy money" he had resorted to stealing automobiles. "I feel that an example must be made in this case, which I hope will be a warning to others," said the judge.

RICH NEW OIL FIELD IS FOUND IN MEXICO

San Francisco, July 2.—Discovery of a vast new oil field on the West coast of Mexico yielding high grade petroleum of parrafin base was reported here today by ojcers of the steamship Fairhaven, who learned the news when they put in Port Angeles, near which the new field is said to be located in the State of Oaxaca on the Isthmus of Tehuantepec.

The greatest effort has been made, they reported, by the concessionaires representing British interests to keep news of the strike a secret. Test wells have been under way for some time.

Independance Day

General Outpouring of Citizens For Nearby Resorts

Independence day will be generally observed here. Practically all business will be suspended. Banks, stores and government offices will be closed all day. The postoffice will be closed all day and there will be no delivery of mail, although there will be a collection in the afternoon.

Hundreds of Alexandrians already have gone to spend Sunday and Monday at nearby resorts. Many left this morning, many more will leave this evening and tomorrow.

Outgoing trains and boats carried large crowds who will spend independence day out of the city. In addition to picnics and outings planned many ball games have been planned and many will enjoy the day on motor parties. The use of fireworks will be in order Monday, although the police have been instructed to see that only those regarded as the harmless variety are used. Hundreds of display pieces will be set off at night.

Regatta Monday

O. D. Club to Participate in People's Regatta in Philadelphia

The Old Dominion Boat Club has entered two boats and crews in the People's Regatta, which will be held in Philadelphia Monday, July 4. The double with the crew, Lionel Beeton and Harry Howard, and the quad which is manned by Louis Hoy, Allen Roberts, Jack Pohl and Marshall Shuman are the boats and crews entered.

Some of the finest crews in the United States are entered at this regatta. J. T. Preston, secretary of the club said: "We expect to have a good report from our crews as they are two of the finest crews that this club has ever sent out."

The boats have already been shipped and the crews, with many supporters, will leave early tomorrow.

City Represented

Corporation Attorney Garner and Capt. G. H. Evans Appear in Rate Case

Corporation attorney H. Noel Garner represented the city and Capt. George H. Evans represented the chamber of commerce at the hearing yesterday before the state corporation commission in Richmond on the application of the Washington-Virginia Railway Company to increase its fare in Virginia in proportion to the recent increase granted that company by the Interstate Commerce Commission. A decision is expected shortly.

PRESIDENT WILL SIGN PEACE BILL ON WEEK-END VISIT.

Raritan, N. J., July 2.—President Harding, who came to Raritan to spend the Fourth of July at the home of Senator Frelinghuysen, today awarded the arrival of a special messenger from Washington bearing the Knox-Porter resolution establishing peace between this country and Germany.

This resolution was adopted by the Senate yesterday afternoon, and word was received from Washington that a special courier would leave the Capitol for Raritan early this morning with it.

It was expected that the President would allow no delay, but would sign the resolution immediately, so that a proclamation of peace could be issued on the Fourth of July.

The President and Mrs. Harding arrived from Washington shortly after 7 o'clock last night. President Harding was so anxious to get on the golf links that he was driven directly to the Raritan Golf Club where he placed fourteen holes with Speaker Gillett, Senator Hale and Senator Kellogg. The women members of the party in the meantime motored to Senator Frelinghuysen's home.

FUNERAL OF A. H. SMYTH

The funeral of Abram H. Smyth, who died Wednesday night at the Alexandria Hospital, took place this morning at 10.30 o'clock from his late residence at the Rosemont apartment, 414 Duke street. Services were conducted by Rev. Percy Foster Hall, rector of St. Paul's Episcopal Church. The burial was in Union cemetery. Pall bearers were Al T. Peake, Joseph De Silva, Benjamin Baggett, Lambert Sullivan, Herman Friedlander and W. S. Richardson. The funeral was attended by a large number of relatives and friends of the deceased.

RING HISTORY BEING MADE TODAY

All Sections of Globe Interested in Championship Contest

COST PUT AT $1,000,000

Knockout or Foul Only Way Decision Can be Reached—Dims All Other Pictures

New York, July 2.—Pugilistic history is being made on a huge pine board arena in Jersey City this afternoon, when Jack Dempsey defends his heavyweight championship against the fistic challenge of Georges Carpentier. It will be a ninternational glove contest in the broadest application of the term. Every section of the globe will await with keen interest the outcome of the battle between the American, holder of a long record of ring victories, and the Frenchman, noted equally for his prowess in the squared circle and on the sterner battlefield of the World War.

The last legal obstacle to the match was removed when the Hudson county grand jury refused to return an indictment charging the principals and the promoters with conspiracy to hold a prize fight in violation of the New Jersey law.

The setting for the bout will be in keeping with the magnitude of the affair. Seats have been provided for more than 91,000 spectators and a major portion of them have been sold. A purse of $500,009 has been given by Promoter Tex Rickard. Of this huge sum, an amount far in excess of any financial compensation ever offered pugilists in the past, Dempsey will receive $300,000 and Carpentier $200,000 regardless of the outcome.

Advance ticket sales up to an early hour last night amounted to nearly $1,500,000. Regardless of the enormous expense attendant upon the venture, Rickard is certain to clear a net profit several times larger than any that has resulted from his previous efforts in this direction.

While official figures are not available at this time, it is estimated that the purse, cost of arena and numerous overhead expenses will mount close to the $1,000,000 mark.

Rickard Dmpsey and Carpentier will not be the only persons to profit by the "battle of the century" as the contest has been aptly named. Uncle Sam, as represented by the internal revenue collectors, will receive a large share of the proceeds. The promoter, principals and scores of others connected with the bout in minor capacities will contribute under the income tax laws a total sum estimated as close to $500,000.

Every nook and cranny of the globe will be represented in the vast assemblage of spectators. In the past 48 hours virtually every incoming train has brought its quota of fight fans from all sections of the United States, Canada and Mexico. Transatlantic and coastwise steamships have added hundreds more to the crowd that will descend on Jersey City today to witness the bout. France the home of the challenger; England, where he is almost equally popular; Spain and other continental countries South America and the Far East—all will be represented.

All past impressions of huge fight crowds and the attendant pictures of interest and enthusiasm retained upon the mental retina of veteran boxing authorities fade before the magnitude of present scenes. Reno, with its gathering for the Johnson Jeffries clash; Havana, the site of the Willard Johnson battle, and Toledo, where Dempsey wrested his present title and many honors from Jess Willard, offer of nothing that compares with the night before scenes of the last of the Dempsey-Carpentier battle.

Great as were those heavyweight championship contests and the assemblies that witnessed them, the contest but a few hours away appears to exceed in pugilistic possibilities, attendance and gate receipts, epicet with that of the mystery surrounding the person of Georges Carpentier, any of the bouts for the title since the day when the late John L. Sullivan,

TODAY'S THOUGHT

Greatness and goodness are not means, but ends! Hath he not always treasures, always friends, the good great man? Three treasures,—love and light and calm thoughts, regular as infants' breath; and three firm friends, more sure than day and night,—Himself, his Maker, and the angel Death!

Coleridge.

The Glorious Fourth.

Before the Gazette goes to press again, another anniversary of that day, which of all the calendar is most peculiarly and distinctively American, will have passed into history. Orations commemorative of its origin and significance will be read and heard on Monday, by over a hundred millions of the earth's inhabitants, politically homogeneous, if not racially. The morning drumbeat of the day, saluting the silken folds of the Flag in Porto Rico, will be heard round the world till the constellations of the tropic night glitter in the far-off skies of the Philippines.

While the day is, as we said, peculiarly American, still it belongs to all the world; and more and more it is coming to be celebrated as the anniversary of the first dawning of a liberty that heralded the larger day for the oppressed peoples of the earth.

And America has been true to her traditions. She is the first nation in history to declare by her actions that might does not make right. She returned to China the millions awarded her as payment of damages in the Boxer Rebellion. She freed Cuba and made her an independent nation. She paid Spain for territory she could have taken by all the rights of international law up to that time. She has but recently paid Columbia for her alleged claims in Panama. She is about to return to the little Dominican Republic its government held by her a few brief years in trust. The only blot on her scutcheon—the seizure of the territory of Mexico north of the Rio Grande at the conclusion of the Mexican War, was expunged when she issued her ultimatum to Napoleon the Third and saved the struggling Mexican Republic.

Doubtless the Fourth of July, 1921, will witness the usual speech-making and flow of oratory that has become the national wont and usage on that day. But we are much mistaken, if this year will not see a far more serious attitude of mind on the part of the writers and orators. Certainly, this Republic has never had the problems to face that now confront her. And her problems are likewise world-problems; the problems of civilization itself.

Nevertheless, we believe with Browning, as it seems to us every right-thinking man must believe, that God is still in his Heaven, and all's right with the world.

AMERICAN ENTERPRIZE
(From the Missouri Gazette.)

We last week promised our readers an account of the journey of the gentlemen attached to the New York Fur Company, from the Pacific Ocean to this place: We now lay it before our readers as collected from the gentlemen themselves.

On the 29th June, 1812, Mr. P. Stewart, one of the partners of the Pacific Fur Company, with two Frenchmen, Messrs. Ramsey Crooks, and Robert M'Clellan, left the Pacific Ocean with despatches for New York.

(Here follows a most fascinating account, occupying four columns of the ALEXANDRIA GAZETTE, evidently dictated to the enterprising reporter by one of the voyageurs himself. This was probably the Fur Company organized by the first John Jacob Astor, which laid the foundation of the great Astor fortune. Washington Irving's narrative of Astoria, would connect intimately with this account, which is evidently taken from a diary kept on the journey. The original expedition westward, left St. Louis as all such expeditions did in those days, at the beginning of March, 1811. The story details adventures with hostile Indians, raging torrents, forbidding mountain ranges, and vast waterless prairies.

This is, indeed, history in its making. If any of our readers desire to read the account, the files of the GAZETTE are cheerfully tendered for that purpose.

THIRTY DOLLARS REWARD

RAN AWAY from the subscriber, on Occoquan, on Monday the 21st inst., two Negroes, MOSES and EVE. MOSES a man about six feet high, 19 years old, of a dark complexion and is a very likely fellow; had on, when he eloped, Oznabrig trowsers, a cotton shirt, a grey clouth waistcoat, and a felt hat, but it is probable he may change his clothes, as he has plenty of money. EVE, a stout woman, upwards of forty years of age, pretty dark complexion, and has a large scar on her breast. It is probable the said Negroes will attempt to go to one of the northern states, for which purpose I have been informed Moses has procured a pass. Whoever will apprehend the said negroes and secure them in any jail, so that I get them again, shall receive the above reward, or Twenty Dollars for Moses and Ten for Eve.

ASK PROBE OF HOSPITAL.

American Legion Complains of Conditions at Ward's Island.

New York, July 1.—Charges that 200 former service men suffering from mental ailments are so mixed with permanently insane patients in the State Hospital on Ward's Island that it is impossible to give them special care, are contained in a report made public today by an investigating committee from the American Legion.

The committee, which visited the island, demanded a formal investigation of conditions in the hospital by the United States Government and the State authorities and called for action against alleged profiteering by the State on the rations and money furnished for soldier patients by the national Government.

NEW MORAL UPLIFT PROGRAM LOUNCHED BY REFORM BUREAU.

Washington, July 1.—The International Reform Bureau, with the Rev. Wilbur Frost Crafts as editor, has issued a new quarterly and launched a new moral uplift program. A nation-wide lobby, by telegram, letter and in person, is urged by Mr. Crafts.

"This is your capitol at Washington," says he, showing a picture of the Capitol. Everybody who is not 'Senator' or 'Representative' belongs to the Third House and should lobby by letters, telegrams, petitions or deputations for laws and make it harder to do wrong, especially for the Volstead prohibition enforcement provision; the Jones-Miller bill to prohibit dope smuggling and dope peddling, the Sandling-Sterling-Sheppard bills to prohibit interstate gambling, and for the Jones marriage and divorce amendments to the national Constitution."

The Twentieth Century Quarterly is the name of the minister's reform paper. Advance sheets carry confessions from Mr. Crafts and other professional reformers that, although the country has fought rum, red light districts and gambling, conditions are growing worse. Mr. Crafts denounces picture producers, the scandalous divorce mills, seven-day newspapers and "automobile immorality." He denounces the American Legion "for not fighting crime instead of demanding a bonus."

In a trip through 25 States, Dr. Crafts gathered lots of "first hand information" about the wickedness of the people of the United States.

In attacking the movies, he warns the producers that if they do not mend their ways the reformers will legislate them out of business.

"Unless the producers, distributors and exhibitors radically change the character of their exhibitions, new and old, before the December session of Congress," said he, "we propose to press for the Federal Motion Picture Commission, full steam ahead, and we ask all who believe such a remedy is needed to present the matter to Senators and Congressmen when they go home for summer recess, by letters, petitions, personal interviews and especially by influential delegations of those who have facts to communicate and matured convictions."

SPORTS

Those who missed yesterday's baseball game between the Second Baptist and Trinity Baseball teams missed a real treat in the way of a baseball game. The game was called on account of darkness at the end of the ninth inning with the score one to one. The game was a pitchers battle from start to finish between Grimm for the Second Baptist and Brown for Trinity.

Grimm had slightly the best of it, having struck out 15 men and allowing only 4 hits, while Brown struck out 9, gave 5 base on balls, hit one batter and allowed 5 hits.

The teams representing the Sundays Schools of the Trinity Methodist church and Second Baptist church, yesterday played a 1 to 1 nine inning game on Baggett's field. The game was of an intensely interesting nature throughout as the score would indicate. Graves for Second Baptist and Brown for Trinity both pitched fine ball, but owing to the condition of the field neither the fielding or the base running was up to the standard.

The Destroyer A. C., will today play the Rosebud A. C. on the High School diamond. Sunday they will play the team of the Benning A. C., in Washington and on Monday they will meet the team of Cherrydale at Cherrydale. Owing to the absence of several players the Destroyers will not be able to place their best line-up on the field for these games. Stover, Whitestone, Snellings, Driefus or Graves on the mound, however, will go a long way toward counter-balancing the absence of these players.

The following players are requested to meet on the High School field this afternoon at 4 o'clock: Snelling, Whitestone, Lane, Dreifus, Wood, Ludlow, Padgett, Stover, Lash, Cockrell, Graves and Hewitt.

SMOKING VAT REVEALS GIANT WHISKY STILL

Chicago, July 2.—A giant vat which police said cost at least $25,000 to build, and so large that it may be necessary to dynamite the house in which it is located to destroy it, is guarded here by police and Federal authorities.

The still has vats in the basement of the house that measure 14 by 18 feet, and are 6 feet deep, while the coils ran through the entire house. Wines, alcohol, mash and "moonshine" worth many thousand of dollars were found in the house and destroyed. The still was discovered when a passerby saw smoke and turned in a fire alarm. One of the great vats, it was found was overheated and was smoking. No one was found at the house and the proprietors have not been located.

DRY FORCE TO BE CUT BY DAWES

Washington, D. C.—Appropriations for prohibition enforcement are to undergo a terrific slashing under the present program for economy Government heads today decided.

When the enforcement machine feels the impact of Budget Director Dawes' blows for economy, which already call for heavy cuts in that branch, a wholesale trimming will be inaugurated.

Prohibition Commissioner Haynes is to be called "on the carpet" by Director Dawes and forced to justify his program which calls for spending $7,500,000 during the fiscal year beginning July 1. The Budget Bureau has been informed through expert counsel that this bureau is in a class with scores of others which have been loaded down with funds for uses of doubtful value.

In view of the fact that the appropriations just made available are nearly 75 per cent above the sums scattered about in rather aimless fashion last year, Director Dawes, will call upon the budget officer of the Treasury, having jurisdiction of enforcement work, to offer fully justification for the elaborate spending program which prohibitionists jammed through Congress.

At the disposal of the new commissioner are the provisions made for heavier allowances for travel expenses for "dry" law agents about the country. This is in addition to the plan to boost the salaries of many of the State directors, whose salaries already are about on a par with those paid Government officers for such character of work.

It develops now, after careful investigation, that a large percentage of the funds drawn from the Treasury to pay for prohibition enforcement last year was expended to defray costs of long journeys of "dry" agents traveling in sumptuous Pullman style and with liberal "expense allowances" tacked on as a concession.

A repetition of this type of "wastage" of taxpayers' funds is to be checked quickly.

To Coal Consumers:--

It is not possible to mine, transport and deliver enough coal during the few Fall and Winter months to supply the demand of that period, so it is always necessary for the trade to take in a reasonable amount of coal during the Spring and Summer months in order to avoid a shortage and high prices.

There is being so small a tonnage stored this Summer that it now looks very much as though there might be a pronounced shortage and higher prices when the weather begins to get cold.

As we see very little likelihood of any decrease in the price of high grade domestic coal between this time and cold weather, we are taking this method of urging our customers to take in a reasonable amount of fuel now.

HAVE YOU EVER BOUGHT ANY STOCK?

If you have then you will be more than interested in our offer.

We have the most complete Information Bureau in the country on unlisted stocks and bonds.

We are offering for two weeks only a complete book covering all points connected with the purchase of stocks or bonds written by men who have had many years experience in the securities business.

We also include in this offer a market report on all unlisted stocks and bonds, and allow two reports on this contract.

The above mentioned books may save you many times its cost for the following reasons:

1st. It explains promotions in plain English so that any man, woman or child can understand thoroughly the operations of the 20th Century promoter.

2nd. It explains how to detect frauds in stocks and thereby protect your savings.

3rd. It will enable you to talk intelligently to any one offering you an investment which may be a good one.

Our book is not offered to the public with the idea of hampering any legitimate enterprise but simply to aid the general public in determining what to do in the the event of their being offered stock or if they have already purchased some. How and Where to Sell.

We am not connected with any brokerage houses and when offering a market report list all brokers making a bid on the specific stock with their respective offers.

The above book and report service sells for $1.00 and we do not believe at this time saying that you will find both to be worth many times the price asked.

Alexandria Citizens Gladly Testify and Confidently Recommends Doan's Kidney Pills.

It is testimony like the following that has placed Doan's Kidney Pills so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of an Alexandria citizen:

Frank E. Roat, blacksmith, 107 S. Payne street, says: "I had trouble with my back. It was weak and lame and sometimes the pain was pretty bad; I could hardly bend or straighten. Mornings my back was so sore it felt like pins and needles. I also had headaches. Nights I had to get up five or six times, and when morning came I was all tired out. This went on until I was advised to use Doan's Kidney Pills. I got Doan's at Leadbeater's Drug Store and they certainly reached the spot. My kidneys acted regularly again and I got wonderful relief from the pains in my back. Since then I have used Doan's once in a while to keep my kidneys toned up."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Roat had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

General Pershing Says:

"IT GIVES me real pleasure to pledge my hearty support to the Fourth Roll Call of the American Red Cross. While the opportunity for its greatest service comes during times of war, and its achievements during the late World War have been unparalleled, yet there is, and perhaps there always will be a vital need for the humanitarian work which it renders.

"The present and former service men can never forget the Red Cross, not only for what it did for them during the war, but for what it is doing now in the Army Camps and Posts and wherever needed in assisting the ex-service men throughout the country. The value of the American Red Cross as a peace time organization can hardly be overestimated, and we owe it our loyal support and active co-operation."

Punch and Judy Coming

Bang! Slap! Crash! "You will do it!" Noise and more noise! What is it all about? Don't get excited; it is merely a warning of what the children will hear, and see when they attend the big Children's Afternoon program at the coming Chautauqua and see the big Punch and Judy show by Professor Will H. Smith.

All the grown-ups have seen a Punch and Judy show some time, and they think they know just what makes those little puppets act so intelligently. Is it that they are controlled by wires? Or rubber bands? Or just how is it that they act so quickly and accurately?

The secret is hard to discover. See the big show at the Chautauqua Tent.

Rescue Home Beacons Of Hope

Sixty-eight thousand girls, eight women disappeared from the streets of our cities last year. Six thousand from New York alone. Where are they?

Everywhere throughout the country the great problem of illegitimacy is confronting those who interest themselves in welfare work, but nowhere perhaps has it been met with the practical Christianity shown by The Salvation Army, which through its twenty-six Rescue and Maternity Homes in the United States returns to health, hope and sanity every year, approximately 2,000 unfortunate girls.

A Salvation Army Rescue Home is open to any girl who needs its protection and who otherwise would be forced along the paths to which only heartbreak, despair and disgrace can point. Once admitted, the past is closed behind her, the future thrown open with hope and courage, while besides the best of physical care she receives the spiritual and mental regeneration necessary if that physical care is to have its best effect.

Besides the best of prenatal and maternity care, the girl receives adequate opportunity for convalescence and assistance in finding work, which in many cases will not separate her from her child, on the ground that just as this responsibility is part of the blessing so is it part of the cure. In these new opportunities for work the girl's history is forgotten and the future thrown open with much hope and courage that the bitterness and resentment brought into the Home are replaced by a steady hope and courage not only to be carried away with her but to be transfused in her influence among those whom she meets.

JURORS CAREFULLY INSPECT IMMODEST DRESS EVIDENCE

Zion City, Ill., July 2.—Six men of Zion, members of Overseer Wilbur Glenn Voliva's congregation, inspected the evidence today in the first case brought for violation of Zion's new modest dress law and failed to agree.

Mrs. Sarah Johnson, 21, of Winthrop Harbor, Illinois, appeared in court wearing the same low neck, short sleeve, transparent blouze which led to her arrest two weeks ago for triple violation of the dress law, but after a careful appraisal of the evidence two of the jurors held out for acquittal. Judge Schamfuss granted the motion of the prosecutor for a new trial.

A Dish That's Fit for a King

Surely nothing like a dish of Ice Cream, either plain or as part of a sundae, parfait or soda is always a welcome morsel, either in Summer or winter. And ours is the kind that always wants you to say: "Give me more."

Ice Cream isn't a dish for youngsters and mothers exclusively—not by a long shot. Men and boys crave for it just as much as the opposite sex. And Ice Cream, made like ours—sanitary, pure. Wholesome and appetizing— always will be welcome—no matter what the occasion may be.

fell before "Gentleman Jim" Corbett at New Orleans.

The outcome of the battle appears to be the one and only subject of discussion and controversy among millions of persons who normally take only the slightest interest in matters pugilistic.

Sentiment appears to lean strongly in favor of Carpentier, probably because of the halo of heroism that the war has given him. However, but a very small percentage of the Frenchman's well-wishers care to carry their enthusiasm to the point of betting on him to win Dempsey is a 2 1-2 to 1 favorite in the wagering and there are thousands of dollars of uncovered wagers here today, although betting by the Frenchman's supporters has increased noticeably within the past few days.

GENERAL EDUCATIONAL BOARD SECRETARY FAVORS UNIVERSITY AS PLACE FOR MEDICAL SCHOOL.

Charlottesville, Va., July 2.—Dr. Abraham Flexner, secretary of the General Educational Board and one of the leading students in medical education in the country, strongly urges the retention of the medical school at the University of Virginia.

"It is my conviction—a conviction born of observaton over a very wide area—that Virginia will hardly be able to develop a school of the highest grade, except as an immediate part of the State University at Charlottesville," states Dr. Flexner in his report which he presented to the Commission on Medical Education in Virginia during its investigation of this question. "A serviceable institution can be undoubtedly created elsewhere, but it will cost as much and lacking the co-operation and stimulus of other university departments, will, I fear, necessarily be upon a somewhat lower scientific and educational plane."

Dr. Flexner's report is an exhaustive and scientific study of the situation in Virginia. He lays great stress upon the necessity of University contact, ideals and activities in medical education, concluding that "it would be easier and cheaper to bring patients to Charlottesville than to reproduce the University laboratories, workers, libraries, and spirit anywhere else."

Dr. Flexner states that "there is only one point in respect to which Richmond could possibly be superior to Charlottesville as a site for the University medical school, viz., in respect to clinical facilities."

Dr. Flexner is firm in his conviction that Charlottesville's clinical facilities were entirely adequate to fit the needs of a large school and cites numerous American and German medical schools located in smaller cities to sustain this point.

MILLIONS FOR HIGHWAYS.

(Special to Gazette.)

New York, July 2.—Alexandria, Va., with a proposed expenditure of $120,000 for paving is one of 310 States, counties, townships and municipalities announced within the past week as contemplating highway improvement to a grand total of $179,-307,500.36.

More than $1,000,000,000 is available for good roads and streets in the United States. This sum, large as it is, represents an increase over the highway revenues of 1914 of only about 150 per cent, while highway traffic has increased 450 per cent. There are now 2,500,000 miles of highways in the United States, of which only an approximate 100,000 miles are improved with modern pavements. When compared to sums expended for luxuries by the pleasure-loving public the American highway budget does not look so impressive.

The people of this country spend $1,000,000,000 a year for candy, $3,-500,000,000 for automobiles, $1,000,-000,000 for automobile tires, $1,275,-000,000 for gasoline, $1,500,000,000 for carpets and rugs, $1,950,000,000 for cigars, cigarettes, tobacco and snuff, and $1,650,000,000 for jewelry, perfumery and cosmetics. On the other hand, the sums spent for roads and streets are seven times greater than those expended for water supply improvements, three times those for sewerage work and fifteen times those for bridges.

VIRGINIA NEWS

Franklin, Va.—George W. Mood, declared the oldest Mason in Virginia died here Thursday at the home of relatives. He had been a member of Jefferson Lodge, No. 65, A. F. & A. M., for sixty-six years, and a past master and treasurer of this lodge for a number of years.

Governor Davis has issued a proclamation indorsing citizens' military training camps and urging all who are eligible from Virginia to take the course which the War Department is to give during August at Camp Meade, Md. Physically fit men between the ages of sixteen and thirty-five may qualify. Virginia is entitled to a quota of 225.

Danville.—The memorial mansion in which President Jefferson Davis held his last cabinet meeting is soon to have placed upon it a permanent distinguishing mark, a $250 bronze marker having been ordered, funds being provided by the city council for this purpose. The marker will measure 26 by 30 inches and will be placed on the outer wall of the building on the main street side. Harry C. Ficklen, a local writer, has written the inscription, the top line in Latin meaning "The Crown After Empire." Then follow the words "The Last Capitol of the Confederacy," then the dates, "April 3rd-10th, 1865." These have been clearly established as authentic.

POTATO PRODUCTION IN THE SOUTH.

The importance of the potato crop in the South is due to its market value rather than its magnitude, for owing to the season in which it is harvested it commands a better price, usually, than the late crop in the North. The wide divergence of seasonal conditions in the South, coupled with a long-growing season, makes it possible to plant and harvest potatoes in some locality in practically every month of the year.

Owing to varying climatic conditions, due to both latitude and altitude, there are three distinct potato-crop seasons in the Southern States. These are the early or truck crop, the late or main crop, and the fall crop, which last may be divided into a second crop and a fall crop proper. The early or truck crop is confined largely to well-defined production centers. Because practically all the early crop is marketed direct from the field when it is in more or less immature condition the question of packages and of shipping facilities is important. Ths subject, and others of interest and value to southern potato growers, are discussed in Farmers' Bulletin 1205, entitled Potato Production in the South, just issued by the United States Department of Agriculture. This bulletin may be obtained free upon application to the Division of Publications.

BLUE MONDAY

Wash day is the one day in the week that is almost universally dreaded and hated by the housewife.

And especially is this true during the hot summer months.

We are in a position to take away the trials of wash day and ironing day and still guarantee your laundry work to be as fresh and clean as if you had washed it yourself.

SPECIAL ATTENTION

TO

Finish Family Wash

We wash and iron the entire lot by the pound and return it to you ready for immediate use.

NURSING SERVICE IS RAPIDLY EXPANDING

This American Red Cross Work Flourishing in Small Towns Throughout Country.

More than 37,000 graduate nurses have been enrolled in the American Red Cross to date and its department of nursing is daily increasing this enrollment.

The department of nursing has been authorized to maintain an adequate reserve of nurses for the army and navy. It will continue to supply the needs of the United States Public Health Service to which it has assigned more than 1,000 nurses in the last year.

It will assist in establishing proper nursing service in foreign countries where the American Red Cross has organized hospitals, dispensaries and schools for nurses. Courses in home hygiene and care of the sick have been started for thousands of women who have never received any education in this direction. Rural nursing which was in its infancy a short while ago has been put ahead at least a decade through the work of the department of nursing and local Red Cross chapters.

Public health nursing has been extended to many rural communities and now flourishes actively in hundreds of small towns and counties. Nearly a thousand efficient nurses have already been assigned to this kind of work.

The department of nursing is uniting with other organizations in a years campaign in recruiting nurses for training schools, in educating the general public as to standards of nursing education and in showing communities their responsibility toward schools of nursing. It will endeavor to meet all these needs as well as to continue the enrollment of dietitians who will be utilized as instructors in home dietetics, in developing nutritional clinics, and in supplying dietitians for the United States Public Health Service and the civilian hospitals.

The Nursing Service will continue to offer to women and young girls the opportunity of securing instruction in home hygiene and care of the sick in every community in the country. This instruction has not only laid the foundation for public health but in some places has given impetus to the establishment of hospitals and community school houses.

"As a community profits by the work of the nurse," says Miss Clara D. Noyes, director of the department of nursing, "it is logical that the community should be aroused to its responsibility. The American Red Cross stands ready to help in a general campaign of recruiting and must have the support, sympathy and understanding of the medical profession as well as the intelligent co-operation of the people at large."

HOME SERVICE FOR EVERYBODY IN NEED

Do you know what the present day Home Service of the American Red Cross is?

Many people do not know that, besides completing the work for ex-service men, especially the disabled, it provides the same neighborly service to families in general that it formerly gave families of soldiers, sailors and marines.

"Home Service covers a wide and varied field," says Frederick C. Munroe, general manager of the American Red Cross. "It gives aid to families in solving such problems as budget planning, marketing, tiding over times of financial stress, keeping children in school, helping crippled children, widowed and deserted mothers, children backward in school and children in conflict with the laws. It renders service to the homeless and transient, to the illiterate, to tenement dwellers, to the unemployed, and gives friendly assistance and advice to foreign speaking groups."

In addition to helping families in the solution of their own problems, Home Service helps in strengthening the weak spots in the social life of communities. It joins hands with others to make communities safer, healthier and happier.

Organizing action along lines in which the community is already interested is one of the objects of Home Service. It has established community meetings, patriotic celebrations, pageants and picnics. Rest rooms, recreation facilities, play supervisors and moving pictures have been provided. Through Home Service other agencies are influenced to bring about improved commercial amusements and better school facilities and to promote traveling libraries as well as to secure county agricultural and home demonstration agents.

If you need assistance at any time go to the secretary of the nearest Red Cross chapter and describe the situation. Your confidence will be sacredly respected and every possible effort will be made to aid you.

American Red Cross Roll Call.

The Fourth Annual Roll Call of the American Red Cross will be held this year from Armistice Day, November 11, to Thanksgiving Day, November 25, inclusive. During this period the men and women of the United States will pay their annual dues and renew their membership.

THE OASIS.

THEY say the World has gone to pot
Because of all the saffron lot
Of Bolsheviks
And other tricks
That keep us all in water hot.

But as for me, I'll not despair
Despite Earth's burdens and its care
While I can hear
The laughter clear
Of little children everywhere.

BUICK

Authorized Buick Service — Emblem of Satisfaction

BUICK predominance among business men means but one thing—Buick is absolutely dependable. It has proved its dependability for twenty years.

You don't need to try out a Buick for dependability. That is universally known. But you should try out a Buick to realize its comfort, its power, how easy it is to operate. There's real pleasure in driving a Buick.

KELVINATOR

REFRIGERATION WITHOUT ICE

Kelvinator is an electrically operated home refrigerating unit. It fits neatly into the ice compartment of any standard refrigerator doing away entirely with the use of ice as a cooling medium.

Kelvinator is the modern mechanical substitute for ice the ice you have for years used in your refrigerator. Ordinarily one thinks of a substitute as something inferior to the original article. The cold produced by Kelvinator is superior in all points to that of ice. Kelvinator cold is a dry, crisp cold, free from the contamination of ice ponds, wagons and dusty street.

Automatically controlled, it keeps food at a steady refrigerating temperature, and at a daily cost of less than ice.

Kelvinator once installed requires no raw materials in its operation. The one thing necessary to Kelvinate your food and to supply your table with cakes of pure clean ice, is electric current and that is a small amount.

Kelvinator relieves you of one more household responsibility—the responsibility of watching your ice supply.

WHAT KELVINATOR DOES

Goes into the ice chamber of your own refrigerator.

Modernizes the home supplying mechanical refrigeration instead of ice.

Keeps your refrigerator colder than ice.

Keeps your refrigerator at a constant unfluctuating temperature—prevents the decay of foods.

Produces a dry, crisp cold. Melting ice keeps the refrigerator damp.

Prevents contamination from impure ice. All delivered ice is subject to contamination.

Reduces daily cost of refrigeration.

Produces cakes of pure, clear ice for table use, from your drinking water.

Operates by electricity alone—requires no water connections.

Operates automatically—starting and stopping as cold is required.

Makes you master of your own ice box.
